ISTANBUL AYDIN UNIVERSITY
TECHNOLOGY TRANSFER AND
PROJECT MANAGEMENT OFFICE

· Education, Promotion and Information

Introducing TTPMO activities to researchers, academicians, students and business world, we provide trainings and briefing events regarding projects and technology transfer.

· Entrepreneurship and Incubation Services

We strive to turn creative ideas into successful ventures by forming an entrepreneurial ecosystem in our university and our region.

· Project Cycle Management

We offer briefing, design and technical support for increasing the participation of regional as well as university academicians and researchers in national and international grant programs.

· Intellectual and Industrial Property Rights

We are available during the protection, awareness creating, licensing and commercializing processes of intellectual and industrial property rights for all the businesses, researchers and students within our university.

· B2B Partnerships

We enable the transfer of the knowledge within the university to public or industry, the transformation of science into an economic value, the establishment of sustainable partnerships by serving as a bridge between the academician and the businessman and guiding regional institutions to research and development as well as innovation practices.

OUR CERTIFICATE PROGRAMS

· Entrepreneurship and Innovation Training

Starting from idea phase to the market, this program explores all the necessary steps for entrepreneurs to transform their technology and innovation oriented business ideas into ventures that have high potential of creating added value and qualified employment.

· Project Cycle Management Training

All phases of the process, from projecting an idea to the completion of the project, will be taught in this program.

· Intellectual Property Rights Management

This program provides training on the processes necessary to protect and register the new idea.

· Project Writing and Management Training

This program provides information on project concepts, applications and project samples regarding all funding programs.

· R&D and Technology Management Training

This training aims to inform its participants on goal setting, market research and strategy development for R&D studies and technological innovation.

INCUBATION. STANBUL

Studying in Istanbul

Istanbul has a wonderful location spanning the European and Asian continents across the Bosphorous Straits. Throughout history, this unique location made Istanbul politically, commercially and culturally a very important city. Once the capital of the Byzantine and Ottoman empires, Istanbul has great historic monuments, a commercial culture that is still very much alive and a cosmopolitan culture that welcomes all. Istanbul is also an education hub with 58 universities currently operating and hosting 600.000 international students. Living and studying in Istanbul is a great experience with so many places to see and so many things to do. As Napoleon said, "If the whole world were one country, Istanbul would be its capital".

About IAU

Students' Top Choice IAU is the most preferred Foundation University in Turkey both by Turkish students and international students.

Focus on Competency IAU emphasizes professional competency in its teaching. Students have internships integrated into their curricula and applied training opportunities through the many industry partnerships of IAU.

Technological Campus IAU has engineering and health sciences laboratories equipped with the latest technology, as well as art and design workshops and studios. Every classroom is equipped with smart boards and podiums.

International University IAU has an international campus with more than 3.750 international students from 102 countries. IAU also offers numerous study abroad opportunities to all its students with its foreign partner universities.

Comprehensive University IAU offers academic programs in Associate's, Bachelor's, Master's and Doctoral levels.

City University IAU's main campus in Florya offers easy access to the many social and cultural activities in Istanbul through public transportation.

IAU International Istanbul Aydın University is committed to internationalization of its student body and academic programs. IAU Directorate of International Relations is responsible for managing and developing international activities. Various offices under the directorate run the student exchange programs such as Erasmus+ and Mevlana, study abroad programs, international summer and winter programs, full-time student recruitment activities, international student support services and Turkish language courses for international students.
