The Children's University Online Spring School program for students aged 5-12 is carried out in partnership with Cyprus Science University. "Virtual Museum, Creative Mathematics and Digital Content Development" workshops are given between 20 March - 12 June 2021. The content of the Virtual Museum workshop is completely uniquely designed. Kocaeli Science Center and Sancaktepe Science Center are among the institutions that support our virtual museum workshops. The workshops are run by expert teachers and many museums such as the Istanbul Archeology Museums, the International Space Station, the British Museum will be visited virtually.

CHILDREN'S UNIVERSITY

Number 19 / January-February-March 2021

The application for our project titled “Classes of the Future, Teachers of the Future” has been made within the scope of Istanbul Development Agency. If the project is accepted, a future class (FCL) will be opened in one school each in Küçükçekmece, Beşiktaş and Üsküdar districts, and in Istanbul Aydın University. Within the scope of the project, an application will be made to the international learning laboratory network as a university-based "learning lab" and our laboratory will be accredited by European Schoolnet.
