The borrowed
book can be kept
for 20 days.

Borrowing time of
the book can be
extended 3 times.

Catalog Search and Use of Databases

At catalog.aydin.edu.tr address, the search is done by filtering as in the example. On the right side of the result you will see the information about the printed source you are looking for.

Catalog Search and Use of Databases

Enter the Databases tab at kutuphane.aydin.edu.tr
Equal Discovery or any database can be searched by entering their own page.

Click on the full text at the bottom of the result,
Later, publications with access permission can be downloaded as PDF.

Access to Off-Campus Databases Proxy settings for Google Chrome

- First, go to Settings from the Tools menu.

- Enter the Proxy settings.

- Enter the Local Network settings.

Choose the “**Automatically detect settings**” and “**Use automatic configuration script**” options.

- Enter the address line;

For Academic staff: <http://bidb.aydin.edu.tr/proxy/akademik/proxy.pac>

For students: <http://bidb.aydin.edu.tr/proxy/ogrenci/proxy.pac>

You must enter your UBIS user name and password in the screen that appears.

Proxy settings for Mac (Safari)

- Firstly, go to Preferences.

- Enter the Change Proxy Settings.

Choose Automatic Proxy Configuration. At URL, enter: <http://bidb.aydin.edu.tr/proxy/akademik/proxy.pac> for Academic Staff

- <http://bidb.aydin.edu.tr/proxy/ogrenci/proxy.pac> for Students.
- After completing these operations, this page will appear when you want to access any database. Click the System Preferences button.
- You must enter your UBIS user name and password in the screen that appears.

Database Proxy Settings for Android

- Go to Wi-Fi settings in Settings, then click "change network" for the active network.
- Click the Show advanced options button.
- Set the proxy to Automatic.
- At PAC URL, enter and save:

For Students:

<http://bidb.aydin.edu.tr/proxy/ogrenci/proxy.pac>

For Staff:

<http://bidb.aydin.edu.tr/proxy/akademik/proxy.pac>

- At the last stage, UBIS user name and password are entered in the "user name" and "password" screen.

Database Proxy Settings for iOS

- Go to Wi-Fi settings in Settings, then click "i".
- Click Set Proxy, which is off.
- The proxy is set to Automatic, and then in URL, enter:

For Students:

<http://bidb.aydin.edu.tr/proxy/ogrenci/proxy.pac>

For Staff:

<http://bidb.aydin.edu.tr/proxy/akademik/proxy.pac>

- After saving the proxy setting, "Proxy Authentication Required" warning appears on the screen when entering any database. At this stage, click the "Next" button.
- At the last stage, UBIS user name and password are entered in the "user name" and "password" screen.

İstanbul Aydın University Open Archive System

Open access means that academic and scientific research can be accessed electronically without any legal, financial or technical obstacles, and that publications can be made available to the public free of charge and unhindered.

Istanbul Aydın University Open Archive System is a system established for the visibility of master's theses of scientific-academic studies published by the university.

Users can view the publications that are included in the system as full text by going to acikarsiv.aydin.edu.tr address.
