VOCATIONAL SCHOOL OF HEALTH SERVICES

Full Accreditation from MEDEK for Vocational School of Health Services Programs

The accreditation results of the evaluation process conducted by MEDEK (Association for Evaluation and Accreditation of Vocational Education) for the Operating Room Services, First and Emergency Aid, Pathology Laboratory Techniques, and Medical Laboratory Techniques programs within Istanbul Aydın University Vocational School of Health Services were announced on December 31. As a result of the evaluation, the aforementioned programs were awarded full accreditation, valid for the period between January 2026 and December 2029. This significant achievement demonstrates that the programs' educational and training processes, compliance with professional competencies, quality assurance systems, and continuous improvement approach have been nationally recognized and certified.

As Istanbul Aydın University, we will continue to pursue our quality-oriented efforts with determination in line with our mission to educate qualified human resources in the field of health. We would like to extend our sincere thanks to all our academic and administrative staff who contributed to this successful accreditation process.

MEDICAL LABORATORY TECHNIQUES PROGRAM

Awareness and Responsibility Training on Combating Antibiotic Resistance Held

An online training session titled “Awareness and Responsibility in Combating Antibiotic Resistance” was organized by the Medical Laboratory Techniques Program of Istanbul Aydın University Vocational School of Health Services on December 16, 2025.

The training featured Assoc. Prof. Dr. Türkiz Verimer, Head of the Pharmacy Services Program at Istanbul Aydın University, as the speaker. The session was moderated by Lect. Dr. Büşra Kaynar, Head of the Medical Laboratory Techniques Program.

Within the scope of the program, topics such as the rational use of antibiotics, the significance of antibiotic resistance as a global public health issue, and the responsibilities of healthcare professionals in addressing this challenge were discussed. The event aimed to enhance students’ professional awareness and to promote conscious and responsible antibiotic use.

MEDICAL LABORATORY TECHNIQUES PROGRAM

HIV/AIDS Awareness Training Conducted

The HIV/AIDS Awareness Training, organized by the Medical Laboratory Techniques Program of Istanbul Aydın University Vocational School of Health Services, was held online on December 17, 2025.

The training featured Specialist Nurse Eylem Çiçek as the speaker, while the session was moderated by Asst. Prof. Dr. Silva Polat Sarı.

Within the scope of the program, participants were provided with up-to-date information on the modes of transmission of HIV/AIDS, prevention methods, the importance of early diagnosis, and strategies to enhance public awareness. The training aimed to improve students' professional knowledge and health literacy, as well as to contribute to reducing misconceptions and stigma related to HIV/AIDS in society.

MEDICAL LABORATORY TECHNIQUES PROGRAM

Keynote Speech Delivered within the Scope of ICMBT 2025

Within the scope of the 3rd International Conference on Medical and Biological Techniques (ICMBT 2025), held on December 17–18, 2025, a keynote speech was delivered by Asst. Prof. Dr. Negar Taghavi Pourianazar.

In the keynote lecture titled “Nanotechnology at the Frontier of Cancer Therapy: From Smart Drug Delivery to Immunomodulation,” current and emerging applications of nanotechnology in cancer therapy were discussed, with a particular focus on smart drug delivery systems and immunomodulation.

ORTHOPEDIC PROSTHETICS AND ORTHOTICS PROGRAM

Guest Speaker

Within the scope of the KEP courses of the Faculty of Health Sciences at Istanbul Nişantaşı University, an online guest lecture was delivered by Lect. Ayşe Yazgan. In this context, a presentation titled “Motor Imagery and Its Assessment in Upper Extremity Amputees” was presented.

DENTAL PROSTHESIS TECHNOLOGY PROGRAM

Participation in the December 6 Dental Technicians Day Event

On the occasion of December 6 Dental Technicians' Day, participation was made with our successful students in the breakfast event organized by the Istanbul Dental Technicians Association at the Green Park Hotel Pendik. Within the scope of the event, views were exchanged on education-related challenges of the Dental Technology profession, and mutual discussions were held with sector representatives. Our students also had the opportunity to meet professionals from the sector, receive information about post-graduation employment opportunities, and gain valuable advice on professional developments.

DENTAL PROSTHESIS TECHNOLOGY PROGRAM

Certified Hands-On Training Conducted

On December 15, 2025, a free, certified hands-on training was provided by Uluas Dental for 200 second-year students from both the first and second education programs, between 09:00 and 17:00, at the G5111 Dental Prosthetics Laboratory. The training focused on Creation porcelain powder layering and Magic Color zirconia surface staining techniques, and was conducted under the coordination of Asst. Prof. Dr. M. Baki Velibeyođlu.
