

ENERGY POLITICS AND MARKETS RESEARCH CENTER (EPPAM)

Energy Politics and Markets Research Center (EPPAM) at Istanbul Aydin University aims to contribute energy policy making and development process in Turkey through conducting researches on energy politics and markets, following developments and researches on energy politics and markets, and also training experts in this area. Main areas are energy politics, energy economy and energy law. The Center designs training and certificate programs, conducts researches and develops projects, organizes conferences / workshops / symposiums, and also issues publications.

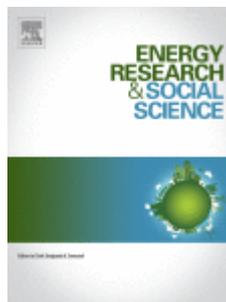

Energy Politics and Markets Research Center, founded in 2009 at Istanbul Aydin University, aims to contribute energy policy making and development process in Turkey through conducting researches on energy politics and markets, following developments and researches on energy politics and markets, and also training experts in this area. Main areas are energy politics, energy economy and energy law. The Center designs training and certificate programs, conducts researches and develops projects, organizes conferences / workshops / symposiums, and also issues publications. Istanbul Aydin University Energy Politics and Markets Research Center (EPPAM) presents significant studies in collaboration with leading domestic and international partners aiming at contributing energy policy of our country located at the energy crossroads of the world. It will make us happy that our institution will become an institution that is mentioned in the name of every field while walking together with the determined targets with fast and dedicated steps.

13. EUROPEAN UNION SUSTAINABLE ENERGY WEEK

EPPAM will organise activities on awareness raising in terms of 13. European Union Sustainable Energy Week in October 2021 in Turkey.
