Istanbul Aydın University Acting Rector Prof. Dr. İbrahim Hakkı AYDIN attended the 79th Independence Day reception of the Republic of Indonesia. On this special day, there were moments that reinforced friendship and cooperation.

In Stanford University's list of the World's Most Influential Scientists, based on Scopus data, Istanbul Aydın University has 5 academicians in the 'Career-Long Impact' ranking, and 6 academicians in the 'Yearly Impact' category. We sincerely congratulate our academic staff for these outstanding achievements and wish them continuing success for the future.

PsiKod Team, one of our IUA TEKMER teams, made us proud by ranking 2nd among 3485 projects with its mobile game room project in the 2024 Teknofest Psychology and Technology branch. We congratulate our team, whose technology advisor is Dr. Faculty Member Selçuk Şener and main academic advisor is Clinical Psychologist Mehmet Teber, for this great success and wish them to continue their projects that shape the future.

In the final competition of the Teknofest Competition 'Fighting UAV', the NOVA UAV Team, under the supervision of Atakan Öztuncer, Research Assistant at the Department of Mechanical Engineering, achieved a great success by winning the 'Best Team Spirit' award! We sincerely congratulate the NOVA UAV Team, which was deemed worthy for this meaningful award as a result of teamwork and perseverance, and we wish them success in the future.

As Istanbul Aydın University, we are taking part in Adana Teknofest! As a strong university where ideas that shape the future come to life, we are stepping into a future with full of innovation and technology with our dynamic entrepreneurs. We would like to thank our entrepreneurs who have successfully represented our university with their projects and wish them further success.

Our stand at TEKNOFEST, the World's Largest Aviation, Space and Technology Festival, which will take place in Adana on 2-6 October, was visited by Mr. Selçuk Bayraktar, Chairman of TEKNOFEST Board of Directors. As IAU Family, we are proud to be a part of such an event where we will discover the technologies of the future together.

Rusya-Çin işbirliğini nasıl okumalı?

Çin Rusya'nın peşinden gitmeye devam ederse bu durum başta ABD olmak üzere Küresel Batı'nın Çin'e karşı izlediği dışlayıcı ve çevreleyici politikaları normalleştirebilir. Rusya'yla Küresel Batı arasında sıkışmış Çin, ekonomik kalkınmasını sürdürmek için ihtiyaç duyduğu dinginlik ve huzuru Rusya yüzünden Batı'yla papaz olursa asla bulamaz.

Yeni dünya düzeninin kodları

Çok kötümser olmak istemem ama bu kafayla gidersek ücüncü dünya savaşını görmemiz an meselesi. Ekonomide korumacı politikaların ivme kazandığı, güvenlikçi bakış açısının hayatın her alanını kuşattığı, uluslararası kurumsal yapıların çalışamaz hale geldiği, illiberal, otoriter ve popülist siyasi hareketlerin güçlendiği, silahlanmanin katlanarak arttığı ve insanlığın pusulasını kaybettiği zamanlar hep dünya ölçeğinde yıkım getirdi. Ümarım benzer bir durumu yaşamıyoruzdur.

A Comparative Analysis of the Issue of Criminalizing Preparatory Acts and the Shift of Punishability to the Forefront in Criminal Law, with a Focus on the Crime of Prohibited Devices or Programs in English Criminal Law, Canadian Criminal Law, and the Regulations in the Council of Europe's Cybercrime Convention

Saban Cankat TASKIN

Abstract

Ceza hukukunda hazırlık hareketlerinin cezalandırılmasının mümkün olup olmadığı cezalandırılmamasıdır. Çünkü ceza hukuku niyeti veya saiki cezalandırmaz. Ancak kamu güvenliğinin gerektirdiği bazı durumlarda, özellikle haksızlık içeriği ağır olan bazı suç tipleri bakımından ceza hukukunda, sonraki suçun işlenmesinin hazırlık hareketlerinin cezalandırılması savunulmaktadır.Bu calısmada, ceza hukukunda suc öncesi dönem olan hazırlık hareketlerinin cezalandırılabilirliğine iliskin temel tartışmalara değinilmis, konu kuramsal boyutuyla incelenmistir. Inceleme sırasında hazırlık hareketlerinin cezalandırıldığı bazı suç tiplerine değinilmişse de bir örnek olarak TCK 246/Ada düzenlenmiş olan Yasak Cihaz veya Programlar Suçu, ilgili suç tipinin unsurlarına ayrı ayrı değinilmeden sadece hazırlık hareketlerinin cezalandırılması boyutuyla. İngiliz ve Kanada Ceza Kanunlarındaki muadil düzenlemeler ve Avrupa Konseyi Siber Suc Sözleşmesi'nin ilgili maddeleriyle karşılaştırılarak ele alınmıştır.

Anahtar Kelimeler

Hazırlık Hareketlerinin Cezalandırılması, TCK 246/A, AKSSS md 6, Yasak Cihaz ve Programlar Sucu, Cezalandınlabilirliğin Ön Alana Kaydınlması.

YouTube platformu üzerinden yayın yapan gezi kanalları, kullanıcıların videoya konu edilen ülke hakkında fikir edinmelerine katkı sağlamaktadır. Bu çalışma, Batı ülkelerini konu alan gezi videolarının Türkiye'deki kullanıcıların kendi ülkelerine karşı bakış açılarını nasıl etkilediğini incelemektedir. Bu amaçla YouTube'da gezi içerikleri yayınlayan kanallardan en çok abonesi bulunan üç tanesi incelenmiştir. Çalışmaya veri kümesi oluşturmak amacıyla örneklem olarak belirlenen kanallardaki içeriklerin yorumları MAXQDA programı yardımıyla toplanmıştır. Bu kanalların her birinde bulunan Batı ülkelerini konu alan ve en çok izlenen üç videoya yapılan yorumlar içerik analizi ve söylem analizi ile analiz edilmiştir. YouTube gezi kanalları içeriklerinin kullanıcıların ülkelerine dair self-oryantalist görüşlerini açığa çıkarmasına alan tanıdığı görülmüştür. Çalışma sonucunda video içeriklerinde ekonomik, kültürel, hukuki, çoğrafi konum, demografik ve genel temalarına ayrılabilecek self-oryantalist yorumların olduğu tespit edilmiştir.

In this research, three different building facades in different climate types according to Köppen Climate Classification and where shading devices are used adaptively are analysed through a model developed by using the adaptive facade classification criteria in the literature. In the model used, the control parameters affecting the facade design, the adaptation method of the facade, the control system and technique, the visibility of the adaptation, and the time scale criteria are addressed, while the potential of using sun shades, which have been used as a traditional solar control tool for many years, in adaptive facades are evaluated. The facades of Carabanchel Social Housing (Spain), Sebrea Headquarter (Brazil), and Swisstech Convention Centre (Switzerland), which are located in different climate classes and where shading devices are used adaptively, are examined. The effects of shading devices with different materials and technological elements on user comfort when they meet with adaptive facade technology are discussed. In addition to the aim of optimizing user comfort, the contribution of adaptive facades, which have the additional aim of reducing structural energy costs by conserving energy, to the energy efficiency and sustainability goals of the building is also addressed, along with its effect on indoor comfort when designed using shading devices. This study emphasizes that shading devices have an important potential not only in terms of aesthetics but also in terms of sustainability goals.
