AYDIN AGENDA

1

Prof. Dr. Mustafa Aydın, Chairman of the Board of Trustees of Istanbul Aydın University, participated as one of the keynote speakers at the conference titled 'The Future of Cultural Cooperation for a Multivocal Mediterranean,' held as part of the Phoenicians' Route organization in Marsala, Sicily. In his speech, he emphasized the critical role that Turkey plays in ensuring the stability of the region and the Mediterranean, and stated that Turkish universities could also take an active role in this project.

AYDIN AGENDA

2

Prof. Dr. Mustafa Aydın, Chairman of the Board of Trustees of Istanbul Aydın University, attended the 17th Ordinary General Assembly meeting of UFRAD Franchising Association, hosted by Istanbul Aydın University.

AYDIN AGENDA

3

Istanbul Aydın University, with the understanding that education gains meaning not only in classrooms but also through environmental awareness, established a solar panel system in Yerköy, Yozgat.

NEWS FROM THE CAMPUS

4

It has been decided to continue our 5-Year Institutional Full Accreditation. As a result of the evaluation conducted by the Higher Education Quality Council (YÖKAK), it has been deemed appropriate to maintain the '5-Year Institutional Full Accreditation' previously granted to Istanbul Aydın University.

Within the scope of the University Student Clubs Cooperation and Support Program (ÜNİDES), Istanbul Aydın University became the foundation university with the highest number of approved projects. A total of 15 projects — 13 local and 2 national — prepared to contribute to society have been approved.

We wholeheartedly congratulate all our students who actively participate in our student clubs and the academicians who support them.

İlke Telgeren, a student at Istanbul Aydın Children's University, was awarded first place in the primary school category for her creative and original artwork in the traditional painting competition themed 'Smart Laboratories,' organized in collaboration between TÜBİTAK Bursa Test and Analysis Laboratory (BUTAL) and TÜBİTAK Science and Society (BİTO).

NEWS FROM THE CAMPUS

7

Our karate team made a powerful impression at the Turkish University Sports Federation's Karate Turkey Championship, earning 3 national championships and 1 third place, making us incredibly proud. We wholeheartedly congratulate our athletes and wish them continued success.

NEWS FROM THE CAMPUS

8

The Istanbul Aydın University family came together for an iftar dinner. Prof. Dr. Mustafa Aydın, Chairman of the Board of Trustees of IAU, attended the dinner along with our academic and administrative staff, as well as senior executives from local and central administrations. On this special evening, where unity and solidarity were at the forefront, we shared the joy of experiencing the blessings of the holy month of Ramadan together.

NEWS FROM THE CAMPUS

9

The traditional holiday celebration at our university took place with the participation of the Chairman of the Board of Trustees of Istanbul Aydın University, Prof. Dr. Mustafa AYDIN. In addition to Prof. Dr. Mustafa AYDIN, the senior management of our university, as well as our academic and administrative staff, shared their holiday greetings from the podium. On this special day, which saw a high turnout from our academic and administrative staff, we shared the joy of unity and togetherness.

Due to Earthquake Week, observed from March 1st to 7th, the PharmAydın and Aydın ADEC clubs organized an event titled Pharmaceutical Services in Extraordinary Situations on March 3, 2025, at Istanbul Aydın University's Florya Campus, led by Expert Pharmacist İlhan Durgut. The event began at 4:00 PM with an oral presentation in the Orange Hall of Block D. The presentation included high-quality and awareness-raising insights about disasters, emergencies, and the dangers that may lie ahead. Following the presentation, the event continued with a practical session.

On March 12, 2025, the "1st Year White Coat Ceremony," which holds great significance for the 1st-year students of the Faculty of Pharmacy at Istanbul Aydın University, was held enthusiastically at the Hasan Fehmi Büyükbayram Conference Hall in Block A. The students' first step into their professional lives was marked by emotional moments with the participation of academics, families, and guests.

Doç. Dr. Sevgi Karakuş, a faculty member of the Department of Pharmaceutical Chemistry and Assistant Dean, published a paper titled 'Synthesis, biological evaluation, and in silico studies of clopidogrel-based new 1,2,4-triazole-3-thione derivatives as DNA methyltransferase inhibitors on prostate cancer cells' in the Q2 indexed Journal of Molecular Structure.

ABSTRACT

Objective: In this study it was aimed to synthesize novel 1,3,4-thiadiazole bearing 4(3H)-quinazolinone compounds, elucidate their structure and evaluate their anti-biofilm activity.

Methods: Four novel 4(3H)-quinazolinone compounds (1-4) were synthesized with a two step reaction starting from 5-bromoanthranilic acid. Their anti-biofilm activity was investigated.

Results: The final compounds' structures were clarified by elemental analysis and spectroscopic methods (IR, 1H-NMR, 13C-NMR and MS). In the result of anti-biofilm activity studies, they possessed 26.0-30.0% biofilm formation inhibition.

Conclusion: Among the tested compounds, 6-bromo-3-{4-[5-(4-nitrophenylamino)-1,3,4-thiadiazol-2-yl]phenyl}-2-methylquinazolin-4(3H)-one formulated compound 3 was found as the most active one with 30.0% biofilm formation inhibition.

ABSTRACT

Acetaminophen (ACMP) is widely used to lower fever and treat moderate pain in patients. But an excess of ACMP can lead to the formation of harmful metabolites, which can lead to serious and occasionally dangerous nephrotoxicity and hepatotoxicity. Therefore, in the present investigation we fabricated a simple electrochemical sensing interface for detecting this fever reducer drug at bromocresol green modified carbon paste electrode (BGR/CPE). Under optimised conditions, the BGR/CPE showed good voltammetric responses for the detection of ACMP, with a micromolar detection limit (0.12 μM), over a linear concentration range (5.0 μM –55.0 μM). The scan rate influence indicates the adsorption-controlled kinetics at the BGR/CPE, and involvement of equal number of protons and electrons as elucidated and confirmed by pH variation studies. The recovery test of ACMP drug in tablet analysis was also done to conclude that the BGR/CPE sensor can be effectually chosen for the

Abstract

Background

Acinetobacter baumannii is an obligately aerobic, non-motile, non-fermenting, gram-negative, opportunistic pathogen. The fact that this pathogen, which is the leading cause of nosocomial infections, is naturally resistant to many antibiotics and quickly acquires new resistance mechanisms gradually limits the antibiotic options that can be used in treatment. So, our study aims to investigate the in vitro

Dr. Cem Erkmen, Faculty Member of the Department of Analytical Chemistry, has published a book chapter titled "Voltammetric Sensors for Health" in the international book "Advancements in Voltammetry for Biosensing Applications," published by Springer.

Voltammetric Sensors for Health

10

Vildan Sanko and Cem Erkmen

Abstract

The importance of health monitoring becomes evident when the quality of individuals' lives is considered in social and economic terms. The increased data sources in health databases in recent years also support this importance. Therefore, researchers have developed many methods for health monitoring, and sensor technologies are at the top of the list. Electrochemical sensors are almost at the forefront of this field, and current technologies combine the advantages of voltammetric determination. Although good progress has been made in electrochemical sensors in general, intelligent sensor-based health systems need to be developed through new technologies for more personalized healthcare. Voltammetric detection methods have good potential and can successfully serve this field.

This chapter emphasizes the importance of voltammetric healthcare monitoring. Therefore, it first discusses the types and roles of different working elec-

The Pharmacy Faculty students, organized by the PharmAydın Club and under the supervision of Dr. Zeynep TÜRK, a faculty member of the Department of Analytical Chemistry, carried out a social responsibility event where they visited Darülaceze and met with the residents there. The students had the opportunity to engage with the individuals living there, making a meaningful impact on their lives and reinforcing their awareness of social responsibility.

On Friday, March 21, a briefing on "Addiction and Infectious Diseases" was given to our students by Clinical Psychologist Ezgi Nur Özdemir from the Küçükçekmece Probation Office.

On Friday, March 21, Occupational Health and Safety Specialist and Lecturer Emre Yılmaz shared an informative presentation with students on 'Fire Prevention and Emergency Management'.

FACULTY OF PHARMACY

3. Bölüm Diskalkulik Bireylerin Tanılama Modellerine ve Türlerine Genel Bakış, Oyunla Matematik Çözümleri

Duygu Özdemir - Ayşe Meltem Demir - Adile Buse Battal - Muhammed Sena Altaçlı

Giriş

İlk kez 20. yy.'ın başlarında, matematiksel becerilerde yaşanan zorluklarla ilişkilendirilmek amacıyla kullanılmaya başlanan diskalkuli, "dys" (bozuk, yetersiz) ve "calculia" (sayma, hesaplama) kelimelerinin birleşiminden türeyerek günümüze kadar gelmiştir. Terim olarak ise ilk kez 1974'te Kosci tarafından bilişsel bir öğrenme güçlüğü olarak gelişimsel diskalkuli şeklinde tanımlanmıştır. Bu tanım ile matematiksel işlev bozukluğuna sahip olan bireylerin, o günün şartlarında sanıldığı kadar aksine, 'zihinsel engelli' kategorisinde olmadıklarının da üzerinde özellikle durulmuştur (Kosci, 1974).

Dünya Sağlık Örgütü'nün yaptığı tanıma göre diskalkuli, bireyin ortalama bir zekaya sahip olmasına ve yeterli bir öğrenme ortamına maruz kalmasına rağmen temel aritmetik becerilerin ediniminde güçlük yaşaması durumu olarak ifade edilmektedir (World Health Organisation, 1992). Yapılan çalışmalarda, en çok normal zihinsel kapasiteye sahip olan bireylerde görülebilen genetik kökenli bir sorun olduğu tespit edilmiş olan diskalkuli (Shalev vd., 2000) genel anlamda, öğrencilerin matematiksel gerçekleri öğrenmede ve uygulamada zorluklar yaşamalarına sebep olmaktadır (Mutlu ve Çam, 2023). Matematik Öğrenme Güçlüğü (MÖG)'ne sahip olduğu düşünülen diskalkulik bireylerin çarpım tablosunu öğrenme, problem çözme, gerekli matematiksel adımları planlama ve işlemleri takip etme gibi süreçlerde ciddi zorluklar yaşadıkları görülmüştür (Akın ve Sezer, 2010). Hatta, sayıların özelliklerini anlamada, sayısal sembollerini tanıma ve kullanmada, temel matematik işlemlerini gerçekleştirmede yetersizlikler yaşayan bu bireylerin nörobilişsel temelli bir öğren-

The book chapter titled "An Overview of the Diagnostic Models and Types of Dyscalculic Individuals, Mathematical Solutions through Play," co-authored by Associate Professor Dr. Duygu Özdemir from the Elementary School Mathematics Teaching Program with her department students, was published by Nobel Publishing House as a chapter within the Special Education book.

ÖZET

Çocukların suça sürüklenmeleri, dünyanın en temel problemlerinde biridir. Çocukların suça iten bireysel ve ailesel nedenler, eğitim eksikliği, ailenin sosyo-ekonomik durum düşüklüğü, aile fertlerinden birinin psikolojik rahatsızlığının olması, babanın alkolik olması, aile içinde psikolojik ve fiziksel şiddetin olması, ebeveynlerinin boşanmış olması, ebeveyn kaybı, ailenin ilgisizliği, aile içinde enstest ilişkiler, şeklinde sıralanabilir. Literatürde yapılan çalışmalar incelendiğinde suç işlemeye sürüklenmiş çocukların ailevi sorunlar yaşama, depresyon, kendine zarar verme, uyku problemleri, bilişsel gerileme, madde kullanımı ile tanışma, motor becerilerinde gerileme, akademik başarısızlık, travma sonrası stres bozukluğu belirtileri gibi çeşitli psikolojik ve sosyal sorunlar yaşadığını göstermektedir. Bu minvalde bu çalışma kapsamında "suç" olgusu suça sürüklenen çocukların gözünden ele alınmıştır. Suça sürüklenen çocukların sosyal profili çizilerek, suça etkili olan etmenlerin neler olduğu ve aile ve arkadaş çevresinin suç üzerine olan etkisi tespit edilmeye çalışılmıştır. Çalışmada nitel araştırma yöntemine ait yarı yapılandırılmış mülakat tekniği kullanılmıştır. Araştırma evrenini temsil edecek suça sürüklenen çocuk sayısına ulaşabilmek için kartopu ve amaçlı örnekleme tekniği kullanılmıştır. Çalışmanın Etik Kurul onayı İstanbul Aydın Üniversitesi tarafından 24.04.2024 tarihinde verilmiştir. Toplam 15 çocuk ile yüz yüze görüşmeler 15.06.2024-15.10.2024 tarihleri arasında gerçekleştirilmiştir. Elde edilen görüşme verileri içerik analizine tabii tutularak temalaştırılmıştır. Çalışmanın sonucunda suça karışan çocukların ilk defa ya da birkaç kez suça karıştıkları ve karıştıkları suçların hırsızlık, kavga, uyuşturucu ve yurttan kaçma şeklinde sıralandığı tespit edilmiştir. Suça karışan çocukların alkole nazaran sigara kullanım oranlarının çok yüksek olduğu, hayatlarının bir döneminde fiziksel, psikolojik ve cinsel şiddet ve istismara maruz kaldıkları bulgusuna ulaşılmıştır. Suça karışan çocukların aile yapılarının ise düzensiz olduğu, ailelerin çocuklarının maddi ve manevi ihtiyaçlarını karşılamada yetersiz düzeyde olduğu, aileler tarafından çocukların suça teşvik edilmedikleri ancak maddi, manevi ve duygusal açıdan aileleri tarafından desteklenmedikleri görülmüştür. Son olarak suça karışan çocukların toplumsal dışlanma ile karşılaştıkları tespit edilmiştir. Çalışmanın sonucu, suça sürüklenmenin yalnızca bireysel eğilimlerle açıklanamayacağını, aile yapısı ve duygusal destek gibi psikososyal etkenlerin yanı sıra düşük gelir düzeyinin ve sağlıklı aile koşullarının da belirleyici olabileceğini göstermektedir.

Anahtar Kelimeler: Suç, Çocuk Suçluluğu, İstismar, Psikolojik Şiddet, Fiziksel Şiddet.

¹ Bu çalışma 2209-A TÜBİTAK Üniversite Öğrencileri Araştırma Projeleri Destekleme programı tarafından desteklenmiştir.

Dr. Havva Meryem İmre, a faculty member from the Department of Textile and Fashion Design, gave a presentation titled "A Look at Fashion Understanding from the 1960s to the Present Through the Lens of Popular Culture" at the "manifest'ou" symposium at Okan University on Wednesday, March 19, 2025.

The Character Design workshop, moderated by Dr. Gonca Türk from the Department of Graphic Design, was held on March 5th. Amin Talebi, a faculty member of the Faculty of Fine Arts at the University of Tehran, conducted the training by applying the silhouette design technique to character design.

The poster is for a workshop titled "CHARACTER DESIGN WORKSHOP" by Amin Talebi. It features the Istanbul Aydın University logo and a 20th anniversary emblem. The text on the poster includes the department name "Çizgi Film ve Animasyon Bölümü", the artist's name "AMİN TALEBİ", and the title "Artist". The workshop details are listed as: Moderator: Dr. Öğr. Üyesi Gonca Türk, Date: 5 Mart 2025 Çarşamba, Time: 10:30-11:30, and Location: T Blok TB2-12. To the right of the poster is a portrait of Amin Talebi, a man with glasses and a beard, wearing a grey t-shirt, standing in front of a brick wall.

TELE ÇALIŞMADA İŞYERİ KAVRAMI

Prof. Dr. Nurşen CANIKLIOĞLU**

Arş. Gör. Melis KUTLU***

ÖZ: Hukukumuzda birçok çalışma şekli mevcut olup, iş hukukunun dinamik yapısı ve dönemin ekonomik ve sosyal koşulları gereği, farklı zamanlarda farklı çalışma şekilleri ön plana çıkabilmektedir. Bunun en çarpıcı ve güncel örneği ise "tele çalışma"dır. Gerçekten Covid-19 Pandemisi döneminde bu çalışma biçiminde ciddi bir artış yaşanmış, o dönemdeki sokağa çıkma yasağının ve kişiler arasındaki sosyal mesafenin korunması zorunluluğu sebebiyle tele çalışma bulaş riskini azaltan kurtarıcı bir çalışma biçimi olarak ortaya çıkmıştır.

Öğretide farklı tanımlamaları yapılmış olan tele çalışmanın, mevzuatımızda bir tanımı bulunmamaktadır. Ancak 4857 sayılı İş Kanunu m.14/4'de pozitif temelini bulan "uzaktan çalışma" modelinin içinde bu çalışma biçimine de yer verilmiştir. 2021 yılında çıkarılan Uzaktan Çalışma Yönetmeliğinde de tele çalışmaya özgü bir tanım veya düzenleme bulunmamaktadır. Daha da önemlisi tele çalışmada işyeri kavramı tanımlanmış değildir. Oysa tele çalışmada işyeri kavramı esnekleşmekte, geleneksel anlamının dışında bir işyeri/çalışma yeri kavramı ortaya çıkmaktadır. Bu bakımdan, tele çalışmada işin görüldüğü yerin hukuken işyeri sayılıp sayılmayacağı sorusu akla gelmektedir. Bu çalışmada da tele çalışmanın türleri bakımından işyeri kavramı konusu ele alınmaya çalışılacaktır.

Anahtar Kelimeler: Uzaktan çalışma, Tele çalışma, İşyeri, Home-Office, Paylaşımlı İşyeri (Tele Merkez), Gezici Tele Çalışma, Bilgi ve iletişim teknolojisi (BİT) araçları

The students of the Department of Physiotherapy and Rehabilitation, in collaboration with the Anadolu Education and Culture Foundation, visited the Semiha Şakir Nursing Home in Zeytinburnu as part of the Vefa Meetings. Led by the Department Chair, Dr. Instructor Demet BİÇKİ, the students offered exercise suggestions to support the physical and biopsychosocial well-being of the nursing home residents. The students addressed the concept of geriatric rehabilitation in a holistic manner with the elderly individuals.

The Nursing Department of Istanbul Aydın University held an Accreditation Meeting with Prof. Dr. Ali SINAĞ, the Vice Rector of Istanbul Aydın University, and İbrahim Hakkı AYDIN, the Acting Rector of Istanbul Aydın University.

The Audiology Department of IAU (Istanbul Aydın University) organized an educational and enjoyable seminar to celebrate the 35th anniversary of Erişçi Academy. The seminar, which included valuable insights and current topics in audiology, received great interest and participation from students. They had the opportunity to enrich their theoretical knowledge with the latest technological developments.

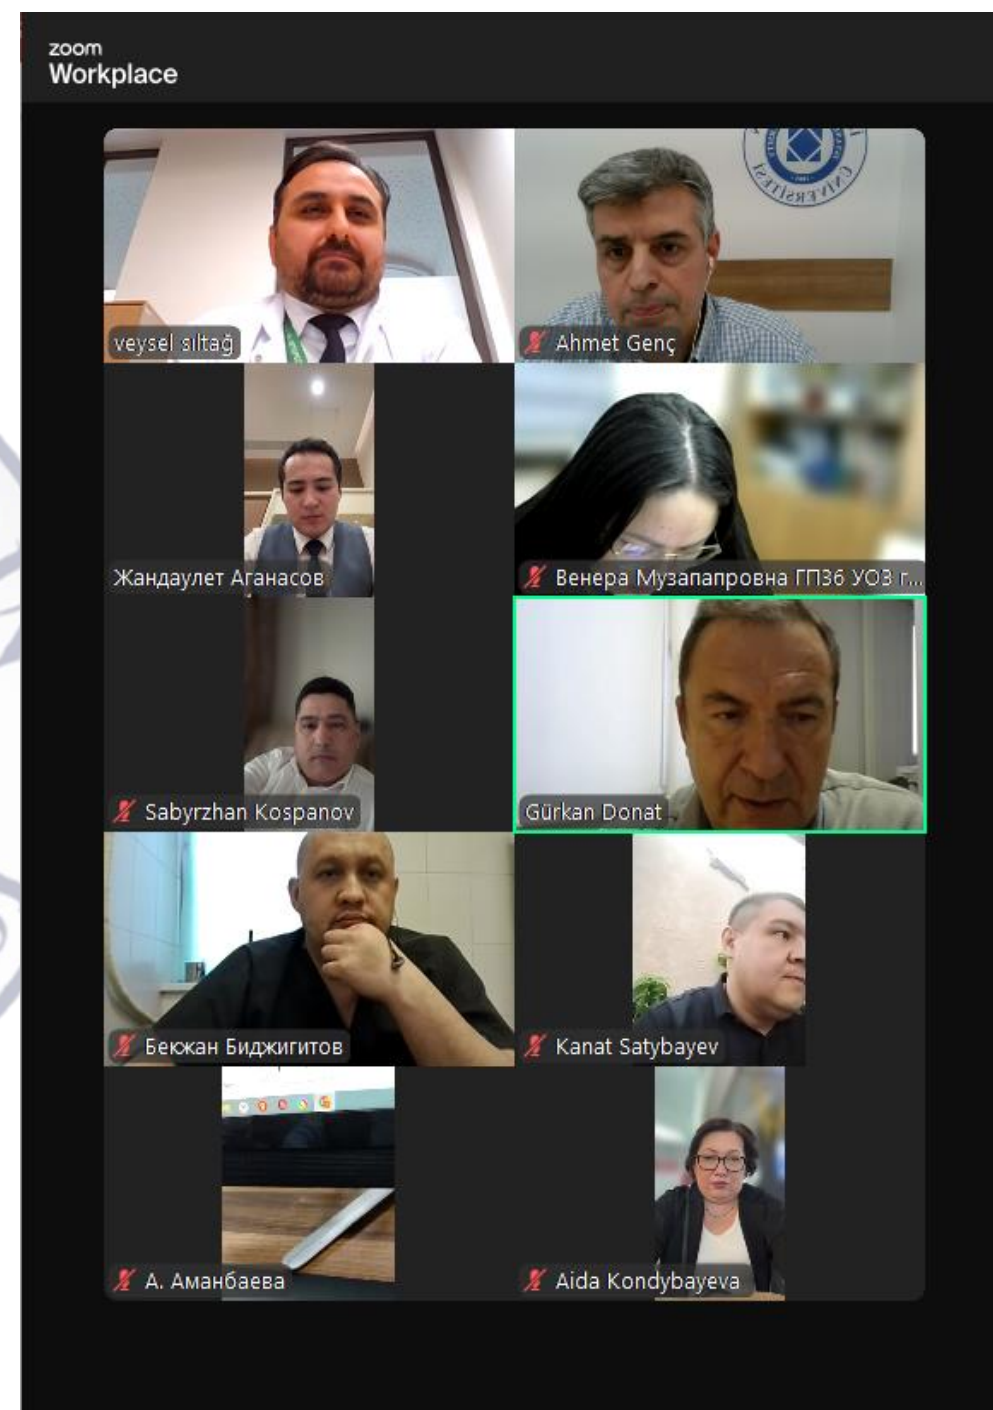

The students of the Audiology Department of İAÜ visited the institutions as part of their internship program. During the institution visits conducted by Research Assistants Melek Başak ÖZKAN and Şeyma Nur TABAK, feedback and checks were gathered from both the center managers and the students, and records were taken for improvements. It was a pleasant time spent.

Prof. Dr. Mustafa Tunaya Kalkan, Head of the Department of Biophysics at the Faculty of Medicine, Istanbul Aydın University, visited Üsküdar Bülent Akarcalı Anadolu High School and held a seminar on "Career Choice and Emerging Professions of the Future." During the event, the structural features of university education and the educational opportunities offered by faculties were shared with senior high school students and teachers. The seminar was enriched with a Q&A session.

Prof. Dr. Mustafa Tunaya Kalkan, the Head of the Department of Biophysics at the Faculty of Medicine of İAÜ, visited İstanbul Erkek Lisesi within the scope of the "University Promotion Days." During the event, students were given information about the university's operations and academic life, while discussions were held on career choices and the role of universities in preparing individuals for life. In this context, the opportunities offered by our faculty were introduced.

The traditional "First-Year White Coat Ceremony" was held for the first-year students of the Faculty of Medicine at Istanbul Aydın University, in both the Turkish and English programs. The students, who are taking their first steps on the path to becoming doctors, wore their white coats in the presence of esteemed academics and their families, marking a meaningful start to their professional careers.

Professor Dr. Meltem Nurtanış Velioğlu, the Dean of the Faculty of Applied Sciences, attended the panel titled "Transforming Consumer Culture: Sustainable Choices and Their Impact," organized by Bahçeşehir University, as an invited speaker.

A webinar titled 'AI-Based Marketing: Future Strategies For Brands' was held on March 27, 2025, under the moderation of Dr. Lecturer Talha Narıcı, the Head of the Department of Management Information Systems at the Faculty of Applied Sciences.

Dr. Ayten Nahide KORKMAZ, a faculty member of the Foreign Trade Department, participated in the 'Science Talks' organized by Yıldız Technical University, which were held on February 17-18-19 and 20, 2025, with experienced academics.

The screenshot shows the homepage of the REFLEKTİF Sosyal Bilimler Dergisi website. The header is red with the journal's logo and navigation links. The main content area is white and contains information about the journal, including its ISSN, publication frequency, and a list of authors. On the right side, there is a sidebar with a 'Makale Gönder' button, a language selector (Dil) with options for Türkçe and English, and logos for TRDİZİN, DOI, Crossref, and ORCID.

Dergi Hakkında

REFLEKTİF Sosyal Bilimler Dergisi (e-ISSN: 2718-0344, ISSN: 2717-9842), 2020 yılında yayın hayatına girmiş hakemli bir dergidir ve yılda üç kez Ekim, Şubat ve Haziran aylarında yayımlanır.

Dergimiz küresel olarak akademik alanın daraldığı, sosyal bilimlerin "ikincil" olarak görüldüğü, "gerçek" ötesi tartışmalarının ve bilim karşıtlığının yaygınlaştığı bu dönemde; eleştirel bir bakış açısına sahip çalışmalara yer verecek, kendini daimi olarak "öğrenci" gören tüm araştırmacıların, akademisyenlerin çalışmalarını özgürce kamuoyuyla paylaşacağı bir ortam oluşturmayı hedefliyor.

Aslında bilim insanlarının kendisiyle yüzleşmesinin, araştırma sorununun oluşturulmasında ve araştırmalarının yürütülmesindeki sorunlarının ve çözüm tercihlerinin kendisini nasıl dönüştürdüğünü serbestçe paylaşabilmesinin de öğrencilerimize bırakacağımız en önemli miraslardan biri olacağını düşünüyoruz.

Reflektif Sosyal Bilimler Dergisi, açık erişim politikasını destekler, dolayısıyla yayınlanan yazıların yazarlar ve okuyucular tarafından paylaşılmasını teşvik eder.
