ABSTRACT

This study examined preschool children's social acceptance and attitudes towards peers with special needs, with attention to the influence of gender, inclusive classroom experiences, and having a family member with special needs. An explanatory sequential mixed-methods design was used. In the quantitative phase, data were collected from 79 typically developing children in inclusive preschool settings using the Turkish adaptation of the Acceptance Scale for Kindergarten-Revised (ASK-R), and descriptive and inferential statistics (independent samples t-tests, effect sizes, and 95% confidence intervals) were calculated. In the qualitative phase, semi-structured individual interviews were conducted and analysed through inductive thematic analysis. Quantitative results showed high levels of social acceptance overall, with significantly higher scores among children who had a peer or family member with special needs, and no significant gender differences. Qualitative findings yielded three interconnected themes – Being Friends, Playing Games, and Helping – illustrating children's empathy, cooperative play, and prosocial support. Integrated results demonstrate that early exposure to peers with special needs fosters positive attitudes through everyday social interactions, underscoring the developmental importance of inclusive learning environments. Implications for practice include strengthening teacher

Foreign language anxiety (FLA) is widely recognized as a significant affective factor influencing second language learning, particularly among non-native learners. Although the phenomenon has been extensively examined in global contexts, empirical evidence from Bangladesh remains limited. This study investi-

Okul Öncesi Öğretmenlerinin Fen Eğitimine Yönelik Pedagojik Alan Bilgilerinin Bağlam ve Deneyime Göre Değişimi

Öz:

Bu araştırmanın temel amacı, konu bağlamının okul öncesi öğretmenlerinin fen eğitimine yönelik pedagojik alan bilgilerini nasıl etkilediğini belirlemektir. Ayrıca, öğretmenlerin mesleki ve öğretim deneyimlerinin, fen eğitimine yönelik pedagojik alan bilgileri üzerindeki olası etkileri incelenmiştir. Araştırma kapsamında, altı hafta süren bir eğitim süreci planlanmış ve farklı deneyim seviyelerine sahip dört okul öncesi öğretmeni ikili gruplara ayrılmıştır. Birinci grup, derslerini bilimsel konular (maddenin halleri, çözünürlük vb.) bağlamında yürütmüştür. Diğer grup ise derslerini sosyobilimsel konular (küresel ısınma, beslenme vb.) bağlamında işlemiştir. Araştırma verileri, altı haftalık süreç öncesinde ve sonrasında ders planları ile yapılandırılmış görüşme soruları aracılığıyla toplanmıştır. Bu veriler, pedagojik alan bilgisi (PAB) bileşenlerine göre alt kategorilere ayrılarak PAB analizi, numaralandırma yöntemi ve PAB haritalama tekniğiyle değerlendirilmiştir. Sonuçlar, okul öncesi öğretmenlerinin temel anlamda sosyobilimsel konularda fen eğitimine daha yatkın olabileceklerini göstermiştir. Diğer yandan katılımcıların çocukların kavrayışlarını ve öğretim stratejilerini öncelikli gördükleri, ancak fen eğitimini müfredat bileşenleriyle ilişkilendirme konusunda yetersiz kaldıkları tespit edilmiştir.

ÖZ

Hızla gelişip yenilenen teknoloji ve buna bağlı dünya çapında bir ağ haline dönüşen iletişim süreçlerindeki artış, halkla ilişkilerin uygulama alanlarını da etki etmiştir. Bu durum kuruluşların profesyonel ve planlı halkla ilişkiler gereksinimini ortaya çıkarmıştır. Başarılı halkla ilişkiler uygulamalarının gerekliliği olan stratejik iletişim sürecinde kuruluşların hedef kitleler üzerindeki etkinliğinin değerlendirilmesi ciddi önem arz etmektedir. Halkla ilişkiler birimleri ve ajansları, kuruluşların finansal, siyasal, sosyal ve kültürel alanlarda oluşturduğu planlamanın gereksinimlerini yürütebilmesi amacıyla yapılan tüm halkla ilişkiler faaliyetlerini ölçmeli ve değerlendirmelidir. Bu sebeple stratejik halkla ilişkiler yönetimi için ölçme değerlendirme zorunluluğu bir gereksinimdir. Bu araştırmada Türkiye’de halkla ilişkiler sektöründe ölçme değerlendirme sürecinin nasıl yürütüldüğü, alanda ne şekilde işlediği, uygulama çeşitliliği, ajanslarının kurumlar ile bu konudaki iletişim süreçleri ve ölçme değerlendirme konusunda yaşanan zorluklar gözlemlenmeye çalışılmıştır. Araştırmanın literatür kısmında stratejik yönetimde halkla ilişkilerin rolü, halkla ilişkilerde ölçme ve değerlendirme bağlamında uluslararası ilkeler ve güncel ölçme değerlendirme yaklaşımları konularına yer verilmiştir. Örneklem ve sınırlılıklar çerçevesinde belirlenen ajans temsilcileri ile yarı yapılandırılmış görüşmeler gerçekleştirilmiştir. Görüşmeler ile durum ortaya konulmaya, ulaşılan veriler ile Türkiye’de halkla ilişkiler alanındaki ölçme değerlendirme yaklaşımları, değerlendirilerek sorunlar ve çözüm önerileri geliştirilmiştir.

Escaping the Ideal Self: Perfectionism and Jungian Individuation in The Menu Film

İdeal Benlikten Kaçıp: The Menu Filminde Mükemmeliyetçilik ve Jungcu Bireyselleşme

Abstract: This article argues that *The Menu* (2022) stages a contemporary parable in which release from pathological perfectionism is achieved not by superior control but individuation. The study seeks to answer the question of how *The Menu* presents Jungian individuation as a means of liberation from the ideal self-image imposed by societal expectations. Methodologically, the analysis proceeds in two integrated stages. Stage 1 performs a Barthesian semiotic reading of ten salient motifs distinguishing denotation from connotation and annotation sign function to map the film's symbolic grammar. Stage 2 re-reads these outputs within an Eco-informed open-text frame while mobilizing Jungian analytical psychology and Erneagram characterography. Findings show that the film's multi-layered sign system leads the model reader to a convergent claim: *The Menu* (2022) critiques the culture of perfectionism and advances individuation as its ethical and psychological alternative.

Keywords: Perfectionism, Jungian Individuation, Open Text, Semiotics.

Abstract: Bu makale, *The Menu* (2022) filminin, patolojik mükemmeliyetçilikten kurtuluşun "daha üstün bir denetimle" değil, bireyselleşmeyle mümkün olduğunu sahneye bir alegori sunduğunu savunmaktadır. Bu çalışma, filmin Jungcu bireyselleşmeyi, toplumsal beklentilerin dayattığı ideal benlik imajından kurtuluş aracı olarak nasıl sunduğu sorusuna cevap aramaktadır. Yöntemsel olarak çözümlenme iki bütünlük aşamada yürütülmüştür. İlk aşama, filmin semiyotik dilini haritalandırmak amacıyla on belirgin motifi Barthesyen göstergebilim okumalarını üretmiştir; her öğe için gösteren düzeyi de çağrışımsal düzey ayrıştırılmış ve gerekli yerlerde ikon/indeks/simges işlevleri saptanmıştır. İkinci aşama, bu çıktıları, metnin kendi kodlarıyla sınırlandırılmış çokanlamlılığa dayanan Eco'nun "açık metin" çerçevesi içinde yeniden okumaktadır; Bunun yanında Jungcu analitik psikoloji ve Erneagram tipolojisinden yararlanmıştır. Bulgular, filmin çok katmanlı gösterge düzeninin okuru tek bir sonuca yönlendirdiğini göstermektedir: *The Menu*, filminin mükemmeliyetçilik kültürünü eleştirdiği ve bireyselleşmeyi bu kültüre bir alternatif olarak sunduğu sonucuna ulaşmıştır.

Anahtar Kelimeler: Mükemmeliyetçilik, Jungcu Bireyselleşme, Açık metin, Göstergebilim.

Öz Bu çalışma, Walter Benjamin'in bir metodoloji olarak sunduğu "son bakış" kavramını tanımlamayı ve bu kavram aracılığıyla sanat eserlerindeki çocukluk ile kaybolan masumiyet temsillerini incelemeyi amaçlamaktadır. Araştırmada nitel araştırma yöntemi benimsenmiş; görsel sanatlar, edebiyat ve sinemadan seçilen ikonik örnekler üzerinden içerik analizi ve estetik yorumlama yapılmıştır. Veri toplama ve analiz sürecinde François Truffaut'un 400 Darbe, Luchino Visconti'nin Venedik'te Ölüm Filmleri ile Samuel Beckett'in Godot'yu Bekleyen gibi temel metinler; Benjamin, Sartre ve Kafka'nın felsefi görüşleri ışığında derinlemesine analiz edilmiştir. Çalışmada elde edilen temel bulgular, "son bakış"ın bedenin tarih içindeki anlık çaresizliğini temsil ettiğini ve nesiller arasındaki yok oluşa yol açan masumiyet kaybını simgelediğini göstermektedir. Araştırma, Benjamin'in perspektif metaforunu çağdaş estetik ve felsefe ile ilişkilendirerek literatüre özgün bir akademik katkı sunmaktadır. Sonuç olarak; sanat eserlerinde "kıyı" metaforuyla betimlenen çocuk figürlerinin, insanlığın modern çağdaki yabancılaşma, yalnızlık ve varoluşsal krizini temsil eden evrensel birer imge olduğu saptanmıştır.
Anahtar kelimeler: sanat, sinema, son bakış, estetik, tarih

Abstract

This study aims to define the concept of the "last gaze," introduced by Walter Benjamin as a methodology, and to examine the representations of childhood and lost innocence in artworks through this concept. A qualitative research method was adopted, employing content analysis and aesthetic interpretation of iconic examples selected from visual arts, literature, and cinema. During the data collection and analysis process, key works such as François Truffaut's *The 400 Blows*, Luchino Visconti's *Death in Venice*, and Samuel Beckett's *Waiting for Godot* were analyzed in depth within the framework of the philosophical perspectives of Benjamin, Sartre, and Kafka. The primary findings of the study indicate that the "last gaze" represents a momentary helplessness of the body disappearing into history and symbolizes the loss of innocence leading to an erasure between generations. The research provides an original academic contribution to the literature by establishing a link between Benjamin's

A panel discussion titled “COMMUNICATION and SPORTS / SOCIETY and PRESS,” jointly organized by the Faculty of Communication and the Faculty of Sports Sciences at Istanbul Aydın University under the coordination of Prof. Sefa Çeliksap, was held on 11.03.2026 in the Purple Hall of T Block.

Lecturer Ahmet Berk Duman from the Department of Radio, Television and Cinema served as an instructor at the workshop held on March 25, 2026, within the Cinema Workshop (Cineozu) program at Cep Sinema B21, delivering a practical training session on the fundamental principles of screenwriting, narrative construction, and short film production processes.

Radio, Television and Cinema Department Lecturer Ahmet Berk Duman delivered a presentation at the workshop organized at Istinye University in collaboration with the Medical Students Association, focusing on cinema language, visual narrative, and film analysis practices within a theoretical and analytical framework, addressing cinema through the axis of aesthetics–body–identity.

Faculty of Communication Erasmus Coordinator Assoc. Prof. Gonca Yıldırım Öge participated in the International Days program upon the invitation of Thomas More University Mechelen. In the program, which hosted more than 200 academics from various countries around the world, Assoc. Prof. Dr. Yıldırım Öge attended various seminars and workshops throughout the week and also delivered a seminar on branding and brand communication.

Advertising Department third-year student Defne Demir, who participated in the ADvise Advertising Academy event organized by the Advertising Subcommittee of Boğaziçi University Business and Economics Club between February 28 and March 1, won the competition held as part of the program and became eligible to undertake a summer internship at TBWA\Istanbul.

Within the scope of the Advertising Department activities and the course “Social Responsibility Campaigns and Advertising,” an event examining the cultural waste profile in Turkey’s seas was held on 14 March 2026 with the participation of Melike Esra Karayel, founder of the Deniz Kızı Academy, under the moderation of Asst. Prof. İlkey Burak Taşkiran. The event addressed issues such as marine pollution, water pollution, and the cultural waste profile in Turkey’s seas through the lens of social responsibility and civic awareness, emphasizing how valuable awareness is in protecting the seas.

Abstract

Biomimetic strategies have increasingly informed adaptive environmental systems; however, biomimetic mechanism transfer into interior environmental comfort remains unevenly operationalized and weakly evidence-stratified. Despite rapid post-2020 expansion of nature-inspired strategies, cross-domain translation across thermal comfort, indoor air quality (IAQ), visual comfort, and acoustic performance remains fragmented. This study addresses this gap by

Prof. Semra Bülbüloğlu and Research Assistant Miray Deliktaş. During the session, fundamental clinical practices such as intravenous catheter insertion and medication dosage calculation were addressed. Through hands-on activities, students had the opportunity to reinforce their theoretical knowledge, while an efficient and interactive learning environment was created, contributing to the development of their professional skills.

The Department of Physiotherapy and Rehabilitation attended the iftar program organized by the Turkish Physiotherapists Association in Istanbul. At the event, the Head of the Department, Assist. Prof. Demet Biçki, represented the department, and professional exchanges took place in a program that brought together prominent figures in the field.

Students who take an active role in the club management of the Department of Physiotherapy and Rehabilitation came together to plan the events to be held in the department in order to strengthen social and academic cohesion.

The Physiotherapy and Rehabilitation Student Community organized an online event via Zoom on March 18, 2026, to raise awareness about the Erasmus+ program. During the event, students learned about opportunities for studying and internships abroad, as well as the chance to explore new cultures. Research Assistant Sevgi Pehlivan from the department participated as the speaker, while second-year student Furkan Küçük served as the moderator.

Students of the Department of Physiotherapy and Rehabilitation came together under the guidance of FTR Club advisor Dr. İoakim İpseftel to plan upcoming academic webinars, meetings, and social events to be held within the department. Students who take an active role in the club's management aim to strengthen both academic and social cohesion.

The World Social Work Day was celebrated at an event organized in collaboration with the Social Services Department Social Work and Solidarity Club and the Istanbul Branch of the Association of Social Workers.

Associate Professor Mira ASSADI, Head of the Department of Social Work, participated as a speaker in a panel organized by the Eyüp Municipality on the occasion of International Women's Day.

TEMEL AMAÇ: Sürdürülebilir kalkınma için barışçıl ve kapsayıcı toplum teşvik etmek, herkes için adalete erişimi sağlamak ve her düzeyde etkili ve kapsayıcı kurumlar inşa etmektir.

Savaş ve toplumsal çatışmalar insanların yaşamları üzerinde uzun süreli fizyolojik ve psikolojik bırakabilir, ölümlere neden olabilir. Bu nedenle barış ve güvenlik, sağlıklı bir toplumun temel koşullarıdır. Birleşmiş Milletler, insan haklarının korunmasını, yolsuzluk ve şiddetin ortadan kaldırılmasını, güçlü kurumların ve etkin bir yargı sisteminin kurulmasını ve özellikle daha yoksul ülkelerin küresel karar alma süreçlerine daha fazla katılımını savunmaktadır.
