AYDIN AGENDA

1

As Istanbul Aydın University, we once again took our place at TEKNOFEST — the world’s largest Aviation, Space, and Technology Festival — held at Istanbul Atatürk Airport between September 17 and 21, organized under the leadership of the Turkey Technology Team Foundation (T3 Foundation) and the Ministry of Industry and Technology.

AYDIN AGENDA

2

Prof. Dr. Mustafa Aydın, Chairman of the Board of Trustees of Istanbul Aydın University, met with Prof. Dr. Erol Özvar, President of the Council of Higher Education, within the scope of TEKNOFEST. We extend our gratitude to Mr. President for his support to young people and universities.

AYDIN AGENDA

3

Prof. Dr. Mustafa AYDIN, Chairman of the Board of Trustees of Istanbul Aydın University, met with Prof. Dr. Orhan Aydın, President of TÜBİTAK, on the third day of #TEKNOFEST2025. We extend our gratitude to the President for his inspiring contributions and leadership in advancing the vision of science and technology and motivating young people.

We are proud to have contributed to the national technology initiative by taking part in TEKNOFEST on behalf of Istanbul Aydın University. We would like to thank all the academic and technical teams who worked hard throughout this process, as well as our students who made us proud with their achievements.

The success achieved by Istanbul Aydın University's PSIKOD team, which won second place in the Technical Applications in Psychology Competition at TEKNOFEST 2025, has brought us great pride. Our students, who received their awards from Vice President Mr. Cevdet Yılmaz, contribute to our country with their science-, technology-, and human-oriented innovative approaches; through their determination and hard work, they are shaping the future. We are truly proud of them!

Prof. Dr. Mustafa AYDIN, Chairman of the Board of Trustees at Istanbul Aydın University, joined in the excitement of young people at TEKNOFEST and also met the university's new companion, "ADA." Showcasing science and technology alongside students, ADA reflected the university's innovative vision and made an inspiring contribution to the festival's enthusiasm.

Kadının Kendini ve Yaşamı İfade Etme Aracı Olarak Kilim: Pirot ve Anadolu Kilimlerinin Motif ve Kompozisyonları Üzerinden Karşılaştırmalı Bir Analiz

Kilims as a Medium of Women's Self-Expression and Life: A Comparative Analysis of Motifs and Composition in Pirot and Anatolian Kilims

Volkan Budak* - Mülge Öztunç*** - Mine Taylan***

Abstract: The stamps, images, “yansı,” and motifs employed by Anatolian communities, which have endured for thousands of years, have been preserved through social memory and passed down through generations. These symbolic elements serve as indicators of cultural continuity, carrying the traces of the past into the present. One of the most powerful carriers of this communication language is kilims. Although the purpose of use, size, or color may change over time, it is observed that the stamps, symbols, and motifs on kilims remain unchanged in essence and exhibit cultural continuity. In Turkish weaving tradition, women come to the forefront of transforming these symbols into compositions. Women have played a significant role, especially in transmitting language and meaning. Women are not only craftsmen but also narrators and memory carriers in which thoughts, feelings, mythology, and epics are expressed through symbols. In this context, women express themselves through kilims in preserving and transmitting social memory. Kilims contain the symbolic forms of thoughts, feelings, mythology, and epics. Motifs constitute the composition scheme; different meanings can emerge from combining different motifs. This study uses the semiotic analysis method to examine the motifs used in Pirot (Balkan) kilims and Anatolian kilims by focusing on women. It evaluates the compositions formed by these motifs in the context of film theorist Sergey Eisenstein's theory of editing. Thus, a new reading is suggested by establishing an interdisciplinary connection between the art of weaving and film theory.

An online workshop was held on September 9, 2025, under the moderation of Assoc. Prof. Dr. H. Volkan ORAL, within the scope of COST Action LIAISE WG2.

The image shows a virtual workshop presentation slide and a video conference window. The slide is titled "LIAISE | Cooperation, development and cross-border transfer of industrial symbiosis" and "COST ACTION CA22110". The main content of the slide is "CA22110 - WG2 Virtual Workshop: September 9th, 2025". Below this, the "WG2 Board" is listed: Dr. Hasan Volkan Oral, Dr. Istemi Berk, and Dr. Azemina Mashovic. The slide also features a graphic of a rhinoceros made of colorful plastic waste, set against a map of Europe. The video conference window shows a presentation slide titled "Triple Layer Business Modelling: A Strategic Tool for Green Startups" by Associate Professor Ajtene Avdulahi from the University of Mitrovica (UBM), Kosovo. The slide also includes the LIAISE logo and a small circular logo at the bottom.

On September 24th, an orientation program for first-year students of our faculty was conducted by Prof. Dr. Ahmet Metin GER, with the participation of the Dean of the Faculty of Engineering, Prof. Dr. Hasan SAYGIN, and faculty members.

The invention titled “Heatable Electrically Conductive CTB Facade Cladding Material and Its Production”, presented at ISIF’25 – 10th International Invention Fair held within the scope of Teknofest 2025 Istanbul, was awarded the Bronze Medal. We congratulate Dr. Haydar DEHGAN and his students for their contributions to this achievement.
