Studying in Istanbul

Istanbul has a wonderful location spanning the European and Asian continents across the Bosphorus strait. Throughout history, this unique location made Istanbul politically, commercially and culturally a very important city. Once the capital of the Byzantine and Ottoman empires, Istanbul has grand historic monuments, a commercial culture that is still very much alive and a cosmopolitan culture that welcomes all. Istanbul is also an education hub. 38 universities are currently operating in Istanbul hosting around 600 thousand students. Living and studying in Istanbul is a great experience with so many places to see and so many things to do.

CITY UNIVERSITY IAU's main campus in Florya offers easy access to the many social and cultural activities in Istanbul through public transportation.

COMPREHENSIVE UNIVERSITY IAU has academic programs at prebachelor's, bachelor's, master's and doctoral levels covering most disciplines.

INTERNATIONAL UNIVERSITY IAU has an international campus with around 4000 international students from 102+ countries. IAU offers numerous study abroad opportunities to all its students at its partner universities abroad.

IAU offers easy access to the many social and cultural activities in Istanbul through public transportation.

TECHNOLOGICAL CAMPUS IAU has engineering and health sciences laboratories equipped with up-to-date technology, as well as art and design workshops and studios. It has an online student registration and information system. Every classroom is equipped with smart boards and podiums.

INCUBATION. ISTANBUL

ISTANBUL AYDIN UNIVERSITY
ENTREPRENEURSHIP & INCUBATION CENTER

· Education, Promotion and Information

Introducing TTPMO activities to researchers, academicians, students and business world, we provide trainings and briefing events regarding projects and technology transfer.

· Entrepreneurship and Incubation Services

We strive to turn creative ideas into successful ventures by forming an entrepreneurial ecosystem in our university and our region.

· Project Cycle Management

We offer briefing, design and technical support for increasing the participation of regional as well as university academicians and researchers in national and international grant programs.

· Intellectual and Industrial Property Rights

We are available during the protection, awareness creating, licensing and commercializing processes of intellectual and industrial property rights for all the businesses, researchers and students within our university.

· B2B Partnerships

We enable the transfer of the knowledge within the university to public or industry, the transformation of science into an economic value, the establishment of sustainable partnerships by serving as a bridge between the academician and the businessman and guiding regional institutions to research and development as well as innovation practices.

OUR CERTIFICATE PROGRAMS

· Entrepreneurship and Innovation Training

Starting from idea phase to the market, this program explores all the necessary steps for entrepreneurs to transform their technology and innovation oriented business ideas into ventures that have high potential of creating added value and qualified employment.

· Project Cycle Management Training

All phases of the process, from projecting an idea to the completion of the project, will be taught in this program.

· Intellectual Property Rights Management

This program provides training on the processes necessary to protect and register the new idea.

· Project Writing and Management Training

This program provides information on project concepts, applications and project samples regarding all funding programs.

· R&D and Technology Management Training

This training aims to inform its participants on goal setting, market research and strategy development for R&D studies and technological innovation.

Mentoring Entrepreneurs, Start-ups and SMEs

We offer consultancy for entrepreneurs and academicians in their fields.

Providing Structured Training on Innovation & Entrepreneurship

We organize trainings in fields such as entrepreneurship, innovation management, technology and product development and project cycle management, given by experts.
