SUCCESS STORY

Hello, my name is Aqib Masood and I am a 3rd year Business Administration student at Istanbul Aydin University. The main reason as to why I chose Istanbul Aydin University was due to the fact that it is an internationally reputed university with a wonderful overall rank. When I started my IAU journey in 2019 I was filled with excitement, enthusiasm and joy. The flow took a small hit when the pandemic disturbed life all over the world, leading us to take our lectures online. The 1.5-year cut-off from social life on-campus was unsettling as compared to classes taken in campus. The delightful and diverse campus of IAU gives more life to the students and serves as an advantage to reduce their academic stress. Istanbul Aydin University has taught me great values, from humility to respect and acceptance. These values shall be instilled in my mind and heart for the rest of my life. More power to IAU, the place which I call home.

Ψ PSYCHOLOGY CORNER

Never forget where and why you started.

There are no mistakes. There are only lessons to learn.

I am the only one who can handle the case even if it is too difficult for me.

Everything around the world was made up by people that were no smarter than you.

It's not what happened to me, my reaction to it is important.
