ISTANBUL AYDIN UNIVERSITY

TURKISH LANGUAGE TEACHING APPLICATION AND RESEARCH CENTER OUR COURSES

Our in-person and online Turkish lessons continue effectively thanks to our students' active participation. Enriched with digitally enhanced content specially prepared by our expert instructors, our educational program offers students the opportunity to learn Turkish and Turkish culture in an interactive and lasting way.

OUR NEWLY OPENED CLASSES

In our A1 level classes, which opened in October, our students have begun their Turkish language learning journey under the guidance of our experienced instructors. In addition to developing the four basic language skills, our curriculum also supports students in learning Turkish through hands-on experiences. We wish all our students who are taking their first steps into Turkish language learning success in the new academic year.

İSTANBUL AYDIN UNIVERSITY

TURKISH LANGUAGE TEACHING APPLICATION AND RESEARCH CENTER

OUR EXAM DAYS

Our Turkish language teaching program includes monthly End-of-Term and Proficiency Exams, which provide an opportunity to measure and evaluate our students' language levels in listening, speaking, reading, and writing.

Students who successfully complete this process receive certificates documenting their Turkish language acquisition. These certificates, which officially record academic progress, support our students in advancing their Turkish language proficiency to higher levels. We congratulate all students who have performed well in the exams and wish success to those who will be taking exams in the future.

OUR TRIP TO SAPANCA

A pleasant and productive trip to Sapanca was organized for our students. During this activity, which took place amidst nature, our students had the opportunity to socialize and experience Turkish culture firsthand. Throughout the trip, our students improved their language skills by practicing Turkish. The Sapanca trip was an unforgettable and educational experience for our students.

OUR TRIP TO ISTANBUL AQUARIUMS

Our trip to the Istanbul Aquarium with our students was an enjoyable activity that took learning outside the classroom.

Our students had the opportunity to get to know different marine creatures up close, and in the process, they had the chance to use Turkish in a natural and communicative environment. Enriched with cultural and social exchanges, this trip increased our students' motivation for language learning and supported social interaction, making it both an educational and unforgettable experience for them.
