Earthquake Regulations Panel

On April 16, 2019, we evaluated the new earthquake regulations with the students of the Faculty of Civil Engineering of our university with the panel we held at AFAM organization.

Following the publication of the Turkish Building Earthquake Regulation on 18 March 2018, what the new regulation covers and what has changed according to the old regulation was presented in detail and moderated by AFAM Director Prof. Dr. Mehmet Fatih Altan made it.

Civil Engineer Cevdet Şentürk and Neşe Er Zaman, joined the panel as panelists. The panelists evaluated the process from the “Italian Building Instruction for Construction in Quake Zone, which was first received from Italy in 1940, to the last regulation published in 2018.”

National Workshop on Drownings and Pulling (Rip) Currents (2019)

We held the first of the National Workshop on Drownings and Pulling (Rip) Currents Workshop with Istanbul Aydın University (IAU) Disaster Training Application and Research Center (AFAM), Yıldız Technical University Natural Sciences Research Center and Bezmiâlem Vakıf University Disaster Management Department on June 21, 2018. We held the second workshop on 29 – 30 April 2019 in cooperation with the Republic of Turkey Ministry of Internal Affairs, Disaster and Emergency Management Presidency.

238 people from 119 different institutions attended the workshop, which was held nationally and lasted for 2 days. A total of 18 presentations were shared in 4 sessions under the titles of Flow Hydrodynamics, Drowning Cases, Medical Approaches in Drowning Cases and Institutional Competencies. In the workshop, desk studies were also carried out under the titles Awareness and Training Activities, Determination of Standards and Competencies, Ensuring Corporate Cooperation, Activities that Local Governments can do, Media's Duties and Responsibilities, Legislation or Regulations.
