

## CERN - Türkiye Knowledge Transfer Summit

The research conducted at CERN, the European Laboratory for Particle Physics, is key to advance our understanding of the universe. The numerous generic technologies developed during this endeavor make pioneering applications possible worldwide. The CERN Knowledge Transfer Group is responsible for the dissemination and transfer of these generic technologies and application areas worldwide.

“CERN-Türkiye Knowledge Transfer Summit” will be organized on 30 September - 1 October 2025 in İstanbul to honor the 10<sup>th</sup> year of Türkiye as Associate Member to CERN and will be hosted by Istinye University which also celebrates its 10<sup>th</sup> year anniversary. The summit will be jointly organized by CERN, Istinye University, MLP Care and TOBB.

The objective of the summit is to introduce the knowledge gained/obtained at CERN on technologies that could serve development of applications focused on “Health”, “Digital Technologies” and “Environment” to all interested companies, organizations and agencies in Türkiye. The summit will also create an opportunity for the Technology Transfer Offices in Türkiye to hear the best practices of the CERN Knowledge Transfer Group on an international scale and enable experience sharing.

In order to achieve an efficient and fruitful summit, TOBB organizes a webinar by Dr. Giovanni Anelli, head of CERN Knowledge Transfer Group, on June, 25<sup>th</sup> 2025, Wednesday between 10:00-11:00 (Türkiye time). The webinar will be a short introduction of CERN technologies and their application areas in order to facilitate all parties in Türkiye to benefit the most from the summit by focusing on their fields of expertise or interest.

*Webinar time: 25.06.2025, Wednesday @ 10:00 (Türkiye time)*

*Subject: CERN Technologies and Their Application Areas*

*Speaker: Dr. Giovanni Anelli, head of CERN Knowledge Transfer Group*

*Registration: <https://tobb.org.tr/cern>*
